

REMARKS/ARGUMENTS

Applicants respectfully request reconsideration of this application in view of the following remarks.

Claim 3 Objection

Claim 3 has been rewritten in independent form to include all of the limitations of the base claim and any intervening claims as currently amended claim 1.

Claim 11 Objection

Claim 11 has been rewritten in independent form to include all of the limitations of the base claim and any intervening claims as currently amended claim 9.

Claim 16 Objection

Claim 16 has been rewritten in independent form to include all of the limitations of the base claim and any intervening claims as currently amended claim 14.

Claim 19 Objection

Claim 19 has been rewritten in independent form to include all of the limitations of the base claim and any intervening claims as currently amended claim 17.

Claim 48

A typographical error has been corrected in Claim 48 to make it dependent on claim 46 rather than claim 34. Support for this may be found as claim 48 references a PN sequence which claim 46 has and claim 34 does not. Additionally, claim 48 is in the independent claim 46 group as written.

Original Claims 2-8, 10-13, 15-16, and 18-19

These original claims have been canceled without prejudice.

Claims 20-55

These claims were allowed.
